Re.: GroupMe

FCC File: 02-278

Date: September 10, 2012

As a cellular telephone service subscriber, I strongly oppose GroupMe's efforts to circumvent current TCPA regulations to send text messages to cell phones. I oppose any efforts to allow text messages to cell phones without the sender having secured the prior express consent from the called party.

Carving out such a loophole for GroupMe will create a flood of unwanted text messages by not only GroupMe but a host of other companies that desire to engage in this practice.

Respectfully Submitted,

Mark Fitzhenry
